

WELCOME TO SUMMERQUEST 2024 AT WORLD ACADEMY!

Dear Wonderful World Academy Families,

Although we are in the middle of winter, we can still dream of warmer weather and all of the fun in the sun that Summer Camp brings. Our Summer Camp Committee has already developed wonderful themes and activities based on last summer's successes and the feedback from our campers and their families. It is our goal to make each camper's experiences engaging, exciting and extraordinary!

While major 2024 SummerQuest Camp themes will incorporate **The Great Outdoors, A Splash of Color, Animal Planet, H2-O'Yeah!, and Crazy Concoctions**, there will be random fun brewing every day!

Throughout the summer, campers will participate in adventures such as field trips; joining in recreational activities and sports; as well as, performing quirky and crazy science experiments; participating in spontaneous games and contests; and enjoying laughter and fun with friends! If your child would enjoy a dynamic, well-rounded summer of sports, games, arts and crafts, theater experiences, science challenges, camping, enrichment and other age-appropriate activities in a safe, local, fun environment with their neighbors and friends, **this is it!** Our community **is known and trusted** to be able to supply your child with healthy, safe and challenging fun in an atmosphere of caring.

Special activities related to our themes include interacting with live animal exhibits and exploring ecosystems during our **Animal Planet** activities; creating treasure maps and leaping through a fun-filled water obstacle course during **H2-O'Yeah!**; amazing mixtures and story telling by the Science Heros show themed "Adventures of the Lost Treasure" and other psychedelic science activities during **Crazy Concoctions**; and uncovering the magic of friendships, swimming and campfires throughout the summer! These and **many more activities** will wow your camper this summer!

In addition, all-day long, your campers will be engaged in games such as volleyball, basketball, checkers, Pictionary, Charades and more! They will be able to unleash their inner creative architect to build fort structures of their own design on our extensive natural landscapes! If your child enjoys friendly competition, he/she can participate in Minute-to-Win-It games and earn prizes during fitness challenges throughout the summer. There will be outdoor tournaments including field games and horseshoes, as well as indoor soccer, capture the flag, et al. While learning about the importance of collaboration and physical fitness, campers will have a chance to work in a group to earn team prizes! Many supplemental programs such as Swim Lessons, Sports Camps, Art Camps, and Lego Robotics are also options for our campers!

We will offer a variety of field trips, on and off-site, including special campfire nights for our older campers to have a blast making lifelong camp memories! In addition, special add-ons to our program for our older

campers will include STEM activities such as coding and robotics, 3D printing, flying drones, and volunteering, to name a few of the fabulous opportunities planned in **Enrichment Camp**.

A separate, digital Activity Form will be sent out this spring to families that have registered already, to sign your child up for specialized activities. They fill up quickly and are on a first come, first served basis, so keep an eye out for them! If you have any questions or would like more information, please feel free to reach out to us.

We look forward to having you join us during our bright sunny days of SummerQuest!

Sincerely,

Erin Seguin
